From the city centre you can take a **bus** number **32**, **42** or **60** to Kupittaa in a not so unlikely event when the weather is not that inviting for walking. You can check schedules on Föli.fi or Google Maps. Föli route guide:

Once you've reached our grey stronghold, don't be put off by the unwelcoming facade, there are several **ways in**, (at the accessible entrance on the ground floor you need to press the green button in front of the door) and it's nice and warm inside.
